GRAND ARMY AT CLEVELAND.

The Burlington Route announces a rate of $36.90—less than one fare—from Pueblo, Colorado Springs and Denver, and intermediate points, to Cleveland, Ohio, and return. The rate from other points in Colorado will be one fare added to the nearest point from which the $36.90 rate applies. All agents will be instructed to sell through tickets on September 7 to 10, inclusive, routed via the Burlington, if so desired by the purchaser. These tickets will be limited to September 11 with privilege of extension to leave Cleveland as late as October 8. No other line can offer a cheaper rate or better service. One can leave Denver on the Burlington's famous "Chicago Special" at 4:00 p. m. and reach Cleveland the second morning at 7:40, the only change of cars being at Chicago. This service is available to every one—whether Pullman berths are desired or not—for the latest pattern reclining chair cars, in which seats are free, are carried on this train, in addition to Pullman sleepers and buffet library observation car. Meals are served to all in dining cars on the popular plan of "pay only for what you get," whether only 25 cents' worth or more. These dining cars are not expected to realize a profit, but are in operation for the convenience of the traveling public, which accounts for the excellence of the service. Nowhere in the world can one get so much for so little money.

If you contemplate a trip to the east why not join the old guard and [illegible]diate from Cleveland to your further destination?

The annual encampment of the G. A. R. will soon be a matter of history, and as this one promises to eclipse all others in point of lavish hospitality, it is well worth a visit.

Why not go and take the Burlington? It costs no more than any other line.

With reference to berths and other information, a letter addressed to Geo. Vallery, general agent, Denver, will elicit prompt attention.

KNIGHTS TEMPLAR AT LOUISVILLE, KY.

The most notable gathering in the history of Free Masonry will be the triennial conclave of Knights Templar which meets in Louisville, Ky., on the 26th, 27th and 28th of this month. The sons and daughters of the Blue Grass state are famed for their hospitality, and the elaborate preparations being made by the citizens of Louisville, and the state generally, for the entertainment of the Templars, indicate that all previous records will be eclipsed. Already $100,000 has been raised for the purpose.

A rate of one fare plus $2 for the round trip has been made from all points. The dates of sale from Colorado are August 23, 24 and 25, return limit by extension, September 16. The official route is via the Burlington from Denver to St. Louis, thence Baltimore & Ohio Southwestern railway to Louisville, and tickets should so read.

The best is none too good for the Knights, and the Burlington has arranged a special Pullman train, vestibuled throughout, to leave Denver about 2:30 p. m. August 23, and run through to Louisville without change, arriving there on Monday, the 26th, at 7:30 a. m. Applications for berth reservations on this train should be addressed to Sir Knight George W. Vallery, Denver.

Every Knight Templar in Colorado should attend this conclave. The expert drill corps of Colorado commandery, No. 1, under the leadership of Capt. R. A. Kincaid, expects to win the big first prize in the competitive drill on Wednesday, August 28, and the event will be properly celebrated at the entertainment headquarters engaged for the Colorado commanderies at the Gault house. Be on hand and cheer them on to victory. Noblesse oblige.

WILD FLOWER SPECIAL.

The managers of the mills admit that the strikers have some friends in the mills but express absolute confidence in their ability to keep the entire plant in operation Coal and iron police carefully guard the property admitting none except employes and they in turn are watched by secret pickets of the strikers

Assistant Secretary M F Tighe returned from the west today and was closeted for several hours with President Shaffer He was given a very enthusiastic reception by his associates and returns a stronger figure in the organization than when he departed Discussing the report Mr Shaffer said

"All that Mr Tighe told me [was i]n the papers last week and there was nothing aside from this The Chicago mill men who remained at work are now no longer members of the organization. They are not entitled to a trial and will have none They are at liberty to act as they see fit now but if they go out they will do so on their own responsibility There will be plenty of trouble for the trust before long if they keep on in their present course There has been no effort on any one's part toward peace and there will be none on our part again As to the situation in Duquesne all I can say is that there has been no strike ordered in that mill as yet I said last week that when we were ready that mill would be attended to

Mr Tighe himself reviewed his trip to the west, and discussing the Chicago men said

"What the South Chicago men are going to do I do not know The building trades council of Chicago the other day adopted resolutions condemning the action of the Chicago men Chicago men are wild with unionism. The South Chicago men are being branded in private and in the papers are scabs"

ATAL ACCIDENT WHILE AT TARGET PRACTICE

[illegible] City Kan Aug 19—While [at target] practice about 9 o'clock this [morning] on Fort Riley reservation, half [a mile] north of this city a seven inch [shell] exploded as it was being placed in the third section gun of Battery O Seventh artillery [command]ed by Captain Van Duzen

URCH DEDICATION IS NOW COMPLETE

[illegible] of the new [church] in Colorado City were [illegible] morning [illegible] one of the oldest mem[bers] of the church and one who has [illegible] interest in its erection [illegible] good for the balance of the debt should it be necessary

Bishop John Walden remained over and completed the exercises at the church last evening According to the custom of the Methodist denomination no church is ever dedicated without being first freed from all debt. The hitch in the dedication came because of this fact.

A Unique Art Exhibit.

Two years ago the young Grand Duke of Hesse Ernst Ludwig called to his capital Darmstadt, seven German artists who had already won a reputation in their respective fields Though they receive small salaries from their ducal patron they are under no obligation to work for him. If he wants the product of their labor he must buy it the same as any one else

He also offered them building lots rent free for five years in a beautiful park. The four married members of the artist colony accepted this offer and a little less than a year ago began building their houses. Later they conceived the idea of exhibiting these houses and their contents as works of art Four other gentlemen of Darmstadt bought neighboring lots and have built on them under the guidance of the artists of the colony The grand duke erected a large central building for studios. Then besides they have built a restaurant, a temporary theater and a temporary picture gallery making in all a dozen buildings These with their furniture and decorations form [illegible] colony of Darmstadt

Here we see houses in their gardens with all their furnishings in place and no superfluous articles to weary us We must keep in mind that everything we see was designed by some one of the seven artists and made according to his directions Naturally we must not think of these men as merely painters or sculptors Although two or three work only in one field several practice successfully all forms of plastic and decorative art. In some cases the house and every object in it are all designed by one artist—(From "The Exposition of the Artist Colony in Darmstadt," by J Q Adams in the American Monthly Review of Reviews for August.

JUDGE MULLINS MAY SUMMON GRAND JURY

Special to the Gazette

Denver, Aug 19—Judge Mullins has promised that if after the present inquiry has been completed he deems it necessary he will call a special sitting of the grand jury to make a more complete investigation than is possible for him to conduct under existing circumstances The judge makes this promise in a letter which he addressed to presiding Judge Carpenter of the district court today It is as follows

"Denver Aug 19 1901—Hon Samuel L Carpenter Presiding Judge My Dear Judge On last Friday morning at a meeting of the judges en banc in your division a representative of the Colorado Bar association appeared before the court and made certain recommendations as to what that association deemed advisable in connection with the recent scandal growing out of the trial of the Anderson case

"It is well known or at least ought to be by this time that judges sitting en banc cannot take judicial action The presiding judge of the criminal division alone under the rules of the court, is the one to determine the questions raised by the bar association and anything you might do would be purely advisory a position I feel you do not care to assume in this matter

"At the outset I announced that I would conduct an open fair and vigorous investigation and that my future course would be guided by developments I had hoped to have completed this investigation by this time so that I would now be in a position to give some definite answer to the request of the bar association I do not feel with the investigation partially finished that I should at this time state what course I shall pursue when it is completed

"If at the conclusion of the proceedings for contempt it shall appear reasonably probable that other persons than those whose conduct is now under investigation were instrumental in causing improper and corrupt means to be used to influence jurors and that proceedings for contempt will be ineffectual I may resort to a grand jury should I believe that a true bill would be found against them and that there are reasonable grounds to believe that a conviction will follow

"My only desire in the matter is to punish those who are guilty no matter who they may be and if the present proceedings cannot reach them I shall certainly resort to some method that [will] bring them to their just deserts. I believe you appreciate the position in which I have been placed in this matter and should not be called upon now to state definitely my conclusions. A reply is due to the bar association and I shall ask that this letter be made a part of what you may say and that my brother judges may be placed in a [illegible] truly yours John I Mullins"

The letter was read at a special meeting of the judges this morning to render their decision in reply to the Colorado Bar association's request, that a [grand] jury investigate the bribery charges The judges announced that they had decided not to interfere with Judge Mullins by calling the grand jury as requested

They held that legally they could not call the special jury The letter of Judge Mullins however is taken by many to be the real answer of the court and it is thought the grand jury will be called—The evidence introduced today was not of a nature to disprove the charges made, only as the credibility of the prosecuting witnesses was attacked

The greater part of the defense was finished this afternoon A number of persons not in the case were examined to impeach jurors, and Bailiff M J Mullen was given a thorough cross examination, divulging the fact that Bailiff Schroeder and two women enjoyed some beer one evening in the court room during the confinement of the jury On matters pertaining to the care of the jury Mullen's testimony embraced nothing of irregular proceedings neither did he see Dan Sadlier or Judge Thomas during the deliberation

John L. Russell former receiver of the land office in this city was called by Mr Smith to tell of a conversation with H H Tammen, the Sunday following the day when the Anderson case went to the jury Mr O'Brien objected to any conversation being introduced, and Mr Smith offered to show by the witness that he saw Tammen, and told the latter a report was circulated that efforts were being made to bribe the jury Upon hearing this Tammen asked Russell to investigate the report and he instituted inquiries at once among the people of the jury He first visited the home of Foreman Adams and after talking about belgian hares for a while drifted onto the Anderson case A young lady who said she was Miss Adams came to the door and sent her brother aged about 21 years to talk to the visitor The young man, according to Mr Smith said to Russell that his family and that of Mr Anderson's had been acquainted for years and were friendly that they all thought Anderson perfectly justified in shooting Tammen and Bonfils, and that Mr Adams the boy's father would stand out for acquittal until doomsday if necessary Further that the father thought Anderson should have used the gun, until it was empty and then clubbed them The Adams and Anderson families are near neighbors Mr Smith's offer was rejected and only the visit to the Adams home by Mr Russell was brought out

By William L. Shute who boards at 604 Twentieth street where Juror Ferguson Halle also resides the defense sought to strengthen the charge that Mr Halle expressed the opinion that Anderson was guilty On cross exam[illegible] the man who inquired into Shute's knowledge of the case as Judson Blackmore whom Mr Halle was wont to term "a dirty liar" The witness never saw inquirer until he appeared and asked concerning the case The witness did not still know his name This was two weeks ago and subpoena was served only today at noon

H H Moore, a job printer identified Adams as the man who said to him that Tammen, Bonfils and Polly Pry ought to have been killed by Anderson and John F O'Brien a plumber of 1834 Irving street gave similar testimony

F D Killiam, a [illegible] ble memory said he lived at 4725 West Twenty fifth avenue, came here the 11th day of April, 1891, met Adams, the 7th day of October 1896 and conversed with him at Fifteenth and Lawrence streets on the 5th of June 1901

"I remember the day I came here," said he "because a man got killed by a live wire I remember the day I met Adams because we started in to work together registering voters. Mr Adams told me Anderson should have killed Polly Pry and both men, and that he expected to get on the jury, because there was big money in it" Killiam said he [illegible] a painter by trade and an invalid by occupation ever since he got shot by Jim Marshall

J D Harrington, a traveling representative of the Denver Post, charged Adams with expressing prejudice against the Post proprietors and Thomas F McGowen another traveling representative of the Post testified that Jerry Lovell boasted of assisting in the selection of the Anderson jury and termed it "A jury that would not convict Judson Blackmore" did not answer to his name when called

Bailiff M J Mullen, suspended during this investigation took the stand and said he could see practically everything that transpired around the jury room and that he never saw Dan Sadlier or any one else on the [illegible] inquiring for Adams Neither did he see the foreman leave the jury room and descend the stairs at the time he claims to have done so The witness felt sure that if such things as charged had happened he would have known it He did not see Judge Thomas on the place nor did he know anything of any interview whatsoever between Adams and any outsider When asked by Mr Smith to describe the jury room and mode of keeping the jury Mullen said the only means of ingress and exit were by way of the stairs in the center of the building the doors to the front hall being locked and his (Mullen's) position so that no one could communicate with the jurors unless they passed him He remembered the instance when Schroeder and Juror Shoemaker left the main body to buy a shirt upon which occasion Shoemaker testified he was offered a bribe

Mullen was excused temporarily that Major William S Durell secretary of the Denver fire department might give his testimony and depart. The major conversed with Judge Thomas on July 30 and 31 The magistrate asked him to be lenient with Dan Sadlier, who was drinking This testimony was intended by the defense to show that it was merely friendly interest in Sadlier's welfare that prompted Judge Thomas to search for him

Mr Mullen then resumed the stand and explained that whisky was given the jurors only as a medicine when absolutely needed He knew nothing about the source of the papers that were thrown into the jury room and none of the jurors intimated that attempts had been made to bribe them In short he was wholly ignorant of any irregularities at any time On cross examination Mullen admitted cautioning Schroeder to be careful. When asked by Mr O'Brien if any ladies call[ed] [illegible] said [illegible] came [illegible] and talked to Schroeder, who said she was Juror Liken's sister and another time two women came, and were talking to Schroeder and other men not jurors, in the court room One evening they had beer and later went out on the lawn, where the jurors could see them He denied promising the jury [illegible] verdict was found The witness said Mr Anderson offered some pretzels with the remark, "boys might be hungry before morning." After a few moments study Mullen recalled the occasion of cautioning Schroeder to be careful, saying it was when he had some friends on the lawn

George Mans investigator for the district attorney said that Jerry Lovell offered to bet that Anderson would not be found guilty The next witness was William Meeham, bartender at a neighboring saloon, who sold Schroeder brandy and bitters and a small amount of whisky but did not remember selling him any beer

At 4:30 attorney Smith asked an adjournment until morning as some witnesses he had at hand had changed their statements, and he did not care to put them on and others had not been reached The case will probably go to the court tomorrow.

The Trouble Between Chile and Her Neighbors

To quote Mr Cleveland's famous dictum "it is a condition not a theory that confronts these South American powers and it is one of primary importance Chile has been an aggressive and relatively successful power She is the only South American country that has developed a strong naval force. It is now about 18 years since Chile as a result of a successful war against Bolivia and Peru, deprived Bolivia of her maritime provinces and thus cut her off wholly from access to the sea while also taking from Peru her southern most coastwise districts. When the treaties of peace were signed however there was no absolute cession of these provinces. It was merely agreed that Chile should hold them for 10 years that is until 1894—at which time the inhabitants of the provinces were to determine by vote to which nation they should permanently belong Naturally Chile has been reluctant to run the risk of losing possession and the vote has never been taken Many Chileans had moved into the provinces in question, and the Bolivians and Peruvians held that the Chileans were not entitled to participate in the election It is not necessary to go further into the details of what has become a highly complicated matter The main situation is clear enough Chile is in possession and has a superior army and navy and she feels that arbitration could bring her no gain and might bring her some loss The Peruvians on the other hand believe that arbitration would result in their getting back the lost territory Each side to this controversy has tried to get the United States to adopt its view of the scope of the arbitration plan to be dis[illegible] government has declined to commit itself and prefers to leave it to the conference itself to deal with the question in its own way. At first it was announced that Chile would not under any circumstances attend the conference, Subsequently however Chile was reassured and decided to come whereupon Peru took offense and proposed to stay away and to keep as many of her neighbors at home as possible There is a good deal of rivalry between the Argentine Republic and Chile A long Andean frontier separates them and they have had difficulties in deciding about the ownership of certain valleys. Chile is the most peculiarly shaped of all independent countries The South American boundary lines indeed, are far from being scientific and are likely to undergo more than one readjustment in the future Since the people of all these republics speak the Spanish language and are of a common origin excepting only Brazil which is Portuguese it would seem probable that the future tendency would be toward fusion into larger states (From "The Progress of the World" in the American Monthly Review of Reviews for August.

Recent Railway Absorption

The strong movement toward concentration of industrial control which has operated within the United States since about the beginning of the year 1899 found expression during the earlier portion of the period mainly in connection with manufacturing enterprises. More recently however it has affected the railway industry and there have been within a few months several very extensive combinations in the latter field Among the most notable are the acquisition of control of the Baltimore & Ohio system which according to the latest data furnished by the statistician to the Interstate Commerce commission [illegible] miles of owned and controlled railway and of the Long Island with [illegible] by the Pennsylvania that of the Boston & Albany, 394 miles, the Lake Erie & Western 881 miles, and the Cleveland, Cincinnati, Chicago & St. Louis 2,396 miles, by the New York Central & Hudson River of the Fitchburg 458 miles, by the Boston & Maine of the Central of New Jersey, [illegible] miles by the Philadelphia & Reading of the Kansas City Fort Scott & Memphis, 963 miles and the Kansas City Memphis & Birmingham 277 miles by the St Louis & San Francisco of the Mobile & Ohio 653 miles by the Southern of the Southern Pacific [illegible] 634 miles, by the Union Pacific and the joint acquisition of the Chicago, Burlington & Quincy, 7,740 miles, by the Great Northern and Northern Pacific The Pennsylvania and New York Central & Hudson River have also jointly obtained control of the Chesapeake & Ohio, 1,457 miles and the Norfolk & Western 1,551 miles. The absorptions enumerated not including the apparent transfer of control of the Northern Pacific, the ultimate disposition of which is still uncertain aggregate 23,655 miles and include only the more important of those that have taken place within a comparatively recent period —(From "The Recent Great Railway Combinations" by H T Newcomb in the American Monthly Review of Reviews for August.

LAWYERS OF THE NATION

American Bar Association Begins Sessions in Denver Tomorrow.

AN IMPORTANT CONVENTION

Commission on Uniform Law Has Under Consideration the Proposed Uniform Divorce Law.

Special to the Gazette

Denver Aug 19—The commission for the uniformity of law held a short executive session at the Brown hotel The commission meets in conjunction with the American Bar association At this morning's session a communication was read from the American Association of Agricultural Colleges requesting the commissioners to take action looking towards securing legislation making the laws affecting agricultural products more uniform

One of the principal objects of the meeting will be the final disposition of an act on divorce, which was discussed at Buffalo N Y in 1900 but was left over for final action at this year's meeting The act is very short consisting of but eight sections and is as follows

Section 1 No divorce shall be granted for any cause arising prior to the residence of the complainant or defendant in this state which was not a ground for divorce in the state where the cause arose

Sec 2. No person shall be entitled to a divorce for any cause arising in this state who has not had actual residence in this state for at least one year next before bringing suit for divorce with a bona fide intention of making this state his or her permanent home

Sec. 3. No person shall be entitled to a divorce for any cause arising out of this state unless the complainant or defendant shall have resided within the state for at least two years next before bringing suit for divorce with a bona fide intention of making this state his or her permanent home.

Sec. 4 No person shall be entitled to a divorce unless the defendant shall have been personally served with process if within this state or if without this state shall have had personal notice duly proved and appearing on record or shall have entered an appearance in the case but if it shall appear to the satisfaction of the court that the complainant does not know the address nor the residence of the defendant and has not been able to ascertain either after reasonable and due inquiry and search, continued for six months after suit brought, the court or judge in vacation may authorize notice by publication of the pendency of the suit for divorce to be given in manner provided by law

Sec. 5. No divorce shall be granted solely upon default nor solely upon admissions by pleadings, nor except upon hearing before the court in open session.

Sec. 6. After divorce either party may marry again but in cases where notice has been given by publication only and the defendant has not appeared no decree or judgment for divorce shall become final or operative until six months after hearing and decision

Sec 7 Wherever the word divorce occurs in this act it shall be deemed to mean divorce from the bonds of marriage

Sec 8 All acts and parts of acts inconsistent herewith are hereby repealed

Copies of this act have during the past year been sent to nearly all the leading lawyers and periodicals in the United States and not one unfavorable comment has been received In many states the act has been adopted by the legislatures and it is hoped that ere long all will have adopted it. If the commission adopts it at this meeting the influence will doubtless cause other states to do likewise At the session tomorrow morning a number of the ministers of the city will appear before the commission and address it on subjects pertaining to its work The principal addresses will be in support of this divorce law The commission is supposed to be composed of three delegates from each state but all the states have not as yet joined There are at present 30 states represented and others will come in at this session

Preparations are fast being completed for the annual convention of the American Bar association which meets in this city next Wednesday morning Headquarters have been opened at the Brown hotel and already a large number of delegates have arrived and registered The association will hold a three days session and will then enjoy a four days tour of the state as the guests of the Colorado members of the American Bar association the Colorado Bar association and the Denver Bar association The trip will include Colorado Springs Cripple Creek, Glenwood Springs Leadville Marshall Pass and Manitou.

The officers of the association are Edmond Wetmore of New York, president John Hinkley of Baltimore secretary and Francis Rawle of Philadelphia, treasurer

Chas M Campbell of this city is secretary of the committee on entertainment and arrangement and much of the success of this meeting will be due to his untiring efforts in arranging the program and preparing the trips that will be taken The program of the meeting is as follows

WEDNESDAY MORNING 10 O'CLOCK.

The president's address, by Edmund Wetmore of New York, New York communicating the most noteworthy changes in statute law points of general interest, made in the several states and by congress during the preceding year

Nomination and election of members.

NEWS NOTES FROM PUEBLO

Pueblo Bureau
Colorado Springs Bureau

Pueblo Aug 19—Pueblo is much mystified by the series of stove explosions which have been occurring in the city at short intervals lately About the twelfth occurred today and it was at the home of A C Schaffer No 311 W Fifth street where only a short time ago there was another explosion of identically the same kind It is believed that dynamite in the coal was the cause of this explosion as well as the others although various other theories are advanced The strange feature of the explosion is the fact that in almost every case a different kind of coal was used It has been suggested that some one with a mania for destructiveness is patrolling the alleys of the city throwing cartridges or some explosive into coal houses

At the Schaffer house this morning the servant girl was putting some coal in the stove and she had hardly turned away when there was a terrific explosion The room was filled with pieces of coal mixed up with boiling potatoes and steaming clothes the wash boiler full of the Monday [illegible] being on the stove at the time The servant girl by some miracle, escaped injury [illegible] a three year old boy, playing on the back stoop was slightly injured by heavy pieces of stove which flew through the screen door The circumstances of the first explosion were about the same as that of today and it is thought possible that the explosive which wrecked the stove before may not have altogether been removed from the coal bin which it seems was down [illegible] The coal house was not cleaned after the first explosion and it may be that some of the dynamite or whatever it was was left to get in its work a second time

The State Association of Insurance Men gathered in Pueblo today for their annual meeting The session was held in the rooms of the Business Mens association and was well attended The opening address was made by President E H Day of Trinidad and papers were read by Clay McMullen of Grand Junction and C M Sampson of Antonito Addresses were made by [illegible] ver W S Marsh of Grand Junction These officers were elected President C M Sampson first vice president F Brayton of Pueblo W G Marsh second vice president P B Gaylord third vice president F J Crockett of Pueblo secretary and treasurer Delegates to the national convention which meets at Put In Bay Ohio September [illegible] to [illegible] as follows F Brayton F B Gaylord C McMullen R D Sanborn of Greeley C W Liner of Cheyenne W P Metcalf of Albuquerque F H Day of Trinidad Frank Hurd of Leadville C F Painter of Telluride J W Day of Boulder F M Foote of Evanston Wyo F G Middlekamp of Pueblo George Sumption of Sheridan Wyo C W Cill of Denver

The Pueblo Driving club tonight decided to change the date of its opening matinee at the fair grounds from August 29 to September 2, Labor day This was necessary because the street car company will not have its tracks laid to the fair grounds by the 29th A number of committees were appointed to look after the advertising and the privileges for that date An effort will be made to have Colorado Springs horsemen attend A feature of the matinee will be a parade of the down town streets in the morning

Frank Dimposs an Italian, is in the county jail awaiting trial upon a charge of assault to rob Dumposso is said to have [illegible] in Mexico with a pair of brass knucks and cleaned out all the saloons in that neighborhood He backed in to Andrew Manchuki another Italian It is alleged, and compelled him to purchase several beers

It is believed that a shake up in the national guard will soon be forthcoming and that as a result, the rosters of the various companies will be considerably shortened It is said that Inspector General Sweeney's report of his inspection tour is largely responsible for the shake up as he found that about 75 per cent of the companies were not attending drill Local national guard circles are speculating on Colonel Overmeyer's successor who up to the present was supposed to be Lieutenant Colonel Smith It is believed that Governor Orman's delay in making the appointment means that Smith will probably be passed over and someone else appointed Politics will probably dictate the appointment.

The city council tonight decided to lay upon the table the ordinance providing for a storm sewerage system and [illegible] ordinance repaired which will provide for both storm and sanitary sewerage districts A new system of taxation will be arranged so that the cost of putting in the storm sewers will be taxed to the people benefited and the sanitary sewers to the entire city It is expected that the system will cost $400 000 The compromise bill of the trustees of the North Side water works allowing the city the same reduction in its water bill as is given by the South Side Water company became tied up in a deadlock the north side aldermen who constitute the board of trustees voting for the bill and the south side ordinance against it The city will pay the north side $500 on the bill which is the old rate and the money will be accepted under protest Current bills which were caught in the deadlock last week were allowed to night with the exception of the [illegible] bill

Ninety homestead patents were received by the federal land office today from the general land office which will bring the business of the local office down to January

An information was filed today in the district court against Mike Ryan with charge of assault to murder committed upon Herman Kujath some weeks ago His bond was fixed at $1 000 Ryan is alleged to have driven a pick through Kujath's face while Kujath lay asleep in his house

EMINENT GEOLOGISTS WERE GUESTS AT ASPEN

Special to the Gazette

Aspen Aug 19—The third day of the Geological excursion was spent in studying the formation [illegible] of Aspen The region is a most interesting one not only on account of the richness of its silver ores but especially on account [illegible] which are recent These are most admirably brought out in maps prepared by the United States Geological survey the detailed geology of which has been worked by J E Spurr although Prof Emmons originally began the study

The town of Aspen lies in a flat on Roaring Fork surrounded toward the east south and west by high mountains the slopes of which are partly [illegible] on the east by large lateral moraines These moraines form benches of considerable extent and are mesa like on their upper part

The faulting of the region near Aspen has been so extensive that the Jurassic strata in the hill north of Aspen are completely overturned and cretaceous strata lie beneath them.

The Castle creek fault is the most extensive of all faults in the region It has a vertical downthrow of some 5 000 feet

Several of the larger Aspen mines were visited during the day and the remainder of the time spent in a study of the faulting and folding of the sedimentaries about Aspen

The party was most courteously treated by Aspen mining men including Mr F T Freeland and were entertained at the Hotel Jerome

Prof T A Chamberlain on behalf of the geologists extended a vote of thanks to Mr Freeland and others and the party left at 6 45 p m August 18 for Ouray Mr Walsh will entertain the party while there

NEWS NOTES FROM VICTOR

Damage at Economic Mill About Repaired—Excavating for the New Opera House

Victor Bureau
Colorado Springs Gazette

Victor August 19—The damage to the Economic mill which resulted from the fire at that plant several days ago has about been repaired The fire caused a suspension of operations in the sampling department for but 48 hours. Carpenters have been at work night and day at the plant, and the sampler is now entirely under roof The mill is not being worked to its full capacity but is treating a very large amount of ore

About one dozen men were put to work this morning excavating for the foundation of Victor's new opera house The building will be constructed at the corner of Second street and Victor avenue and will be completed before the first of the year The company which is building the structure is capitalized for $40 000 of 4 000 shares at $10 each and most of this stock has been disposed of

The ball given by the ladies of the Catholic church at McCarville hall this evening was a very enjoyable affair The inclement weather interfered slightly with the attendance but all present passed a very pleasant evening

Wm Everitt a small boy living at Elkton jumped from a moving F & C C train at Fourth street this afternoon and sustained a sprained back and a slight fracture of his right arm He was taken to his home [illegible] has gone to Albuquerque N M where he will remain for a week or two in the hope that the lower altitude will benefit his health

After a vacation of several weeks James McPherson teller of the Bank of Victor has returned home

Mr and Mrs A R Henel left this morning for a visit to the Panamerican exposition at Buffalo and other eastern points They will be gone about one month

OURAY

Special to the Gazette

Ouray Aug 19—A second attempt at suicide was made in this city during the past 24 hours and the last case was a success in the short space of two hours A miner named Granville Higginbotham who had recently worked at the Calliope and was arrested on Saturday night for drunkenness and confined in the city jail cut his throat this forenoon in the corridor of the jail severing the jugular vein, and although immediately attended by Dr Fish and removed to the hospital died in less than two hours He used a large pocket knife to accomplish the deed He was aged about 40 years Dementia caused by excessive use of liquor probably led up to the rash act Coroner Fish does not consider an inquest necessary The Miners union will conduct the burial services tomorrow in addition to the services at St Patrick's church

Howard Erder a young man of 2[illegible] years who swallowed a large dose of laudanum Saturday night with supposed suicidal intent and was placed in the county jail for safe keeping owing to threats to accomplish the act was released this morning and he left for his home in Gunnison His friends now claim that the overdose was taken with no intent to commit suicide His father is a wealthy lumber dealer having yards in Gunnison Montrose and Grand Junction

A contractor named Ben Gilbert was arrested this morning by a deputy sheriff from Silverton and taken back to that city under the charge of trying to defraud his men by collecting money due on a contract from Justice of the Peace W D Walsh and [illegible] without paying his carpenters

Mr and Mrs E A Thayer of Denver are the guests of Mr and Mrs Thomas Walsh

The geological survey party 32 in all, in charge of Prof Emmons arrived here this afternoon and were driven to Ironton in stages They will return this evening and will be taken to the Camp Bird tomorrow Hon Thos F Walsh and Mayor W W Rowan drove down to Bachelor Switch to meet the party and the mayor made a welcoming address The distinguished party are the guests of Mr Walsh at the Beaumont

DEATH OF A PROSPECTOR NEAR GLENWOOD SPRINGS

Special to the Gazette

Glenwood Springs Aug 19—William Grandstaff, a Portuguese prospector was this morning found dead in his cabin near the top of Red mountain about two miles from Glenwood Springs and within [illegible] Grandstaff had staked several claims near his cabin which he declared were rich in gold though but few of the citizens had any faith in his prospects

He lived the life of a hermit in his [illegible] Glenwood Springs occasionally for provisions He had not been seen for about three weeks and today Marshal Wedenmann sent a colored boy up the mountain to see if [illegible]

The boy returned and reported that Grandstaff was dead and that he had evidently been dead several days In the absence of Coroner Hotopp Justice Hedden will be there tomorrow to view the remains which will probably be buried on the mountain side near the cabin where he died

TWO GAMES THIS AFTERNOON

The Millionaires and Kidnapers Play Here Today.

PARVIN AND M'NEELEY

First Game Called at 2 30 Hollingsworth Will Play Short and Hulen Left Field—The Team Is Climbing

The Millionaires meet the Kidnapers from Omaha for two games this afternoon and these two games will be the last that the Omaha team plays in this city this season The first will begin at 2 30 One ticket admits to both

Parvin and McNeeley are slated for the box for today's games and each will try to add another victory to his record for the season If the locals can win both these games from Omaha they will be close to the first position in the second division. If they keep on playing the way they have been in the last few games no team in the league will be able to beat them

Since Billy Hulen has been back in the game he has been trying to help the team out of the hole it had gotten into Billy has sent Hollingsworth transportation and the little infielder will be in town today in time to play in the games this afternoon. This will strengthen the team a little more as Holly is a good man in the field and a fair man at the bat. This will throw Hernon to the bench, for Hulen will go out to left field and Holly will go in at short In all probability Tannehill will be back in the game today He has been sick the past few days but thinks he will be able to play today This will make another extra man to be accounted for Holland may be reserved as sub-catcher where he acquits himself with credit and O Connell may go on bag No 1 but this is not early that it will be this. Hulen has not announced what they will do with the extra man Both Holland and O Connell are playing in good form and in all probability they will both be held Ream may be used in the box and that would give O Connell sack No 2 However he fixes it, Billy is trying to put the team in the best possible condition to win most of the remaining games and he promises that Colorado Springs will not end the season any lower down than it is now

AROUND THE BASES

Omaha two games today First game called at 2 30 One admission admits to both

Hollingsworth returns from Salt Lake today and will appear in a Colorado Springs uniform again this afternoon

Hemphill emphatically denies that he is entering into or has entered into negotiations with the St Louis National league team. He says he has not received an offer from them and has no idea of going there

Rumor says Tannehill and Bandelin are booked for the National league as soon as the Western league's season closes They are both promising men and are playing in first-class form

Denver plays Des Moines today It is a double-header and the Grizzlies are fairly confident of winning Des Moines comes up here tomorrow and plays two days a double header being scheduled for Wednesday

Umpire Hulen is accused of throwing yesterday's game The Gazette sporting man stamps the accusation as false The Cripple Creek team couldn't have held the game if Billy had stolen it and boxed it up for them

YOU never cut off three quarters of a new cake of soap and throw it away! Yet you pay twice the price of Ivory Soap for a cake of "tinted" toilet soap less than half as large. Your little cake of toilet soap costs you four times the price of Ivory, for it lasts only half as long and costs twice as much. No money can buy purer or better soap than Ivory. If it came in dainty paper, all scented and colored, you would pay fifteen cents for a very small cake of it.

CRIPPLE ELKS STRUCK A SNAG

Could Have Done Better Had Griffith Not Played

EIGHTEEN STRIKE OUTS

Was the Record of the Local South paw Final Score Was 11 to 3

Lodge 309 now stands at the 500 per cent mark in the Colorado Elks Baseball league. This was accomplished by winning yesterday's game with Cripple Creek. The game with Denver was lost but there is another to come and the [illegible] swear revenge Then Pueblo has a team in the running and the Best People on Earth will have lots of fun before their season is over

But yesterday's game [illegible] it was a peach It's too bad though that there were only a baker's dozen out to see the fun for there was fun The Colorado Springs boys had most of the fun and it was nearly all bunched into the third inning when Boyle was knocked out of the box Griffith was the star of the local aggregation In the first inning he struck out two men in the second he fanned three in the third he repeated the dose and in the fourth he did likewise and he kept his work up all through the nine innings, until he had a total of 18 strike outs He passed three men to first and allowed five little hits This tells why the gold camp team couldn't score any more than three runs and in fact only one of them was earned

On the other hand Boyle was easy and in three innings the local team had batted out six hits which with a total of seven errors by the visitors netted eight runs six of which were made in the third inning Roberts went into the box in the fourth and held the locals down a little better but the home team got six more hits off him and piled up three runs making a total of 11 runs all told

Harry West and Doc Berry shared the batting honors each scoring a home run Harry getting his on a misjudged fly which the center fielder evidently didn't care to handle [illegible] and Doc getting his by driving the ball through the second baseman and center fielder

Following was the score by innings

A SHORT CAMPAIGN.

THERE is certainly no good reason why more than four weeks should be devoted to a campaign for county offices. That party will deserve most of the citizens which shows its devotion to the interests of those citizens in practical ways, and the party that desires to stir up the community any longer than is necessary for a sufficient discussion and understanding of the issues involved is not looking after the public interest as it should.

The suggestion for a prolonged campaign usually comes from some zealous political worker who thinks that in the course of such a time he will have a better opportunity to display his peculiar arts. But such persons fail to realize that there is something vastly better than playing petty politics and that is straightforward political honesty towards the people. A devotion to common sense and a reasonable care for the business interests of the community are worth a hundred times more than a whole lot of political trickeries that deceive nobody.

In El Paso county especially there is no good reason for a long campaign; and the politicians on either side need not hope to make good by a wasteful discussion of political issues any defects in the make-up of the ticket or in the political record of the party in the past.

What the Republicans especially need to do is to turn their attention to the selection of a ticket that will command the respect and confidence of the people of this community, a ticket composed of men whose personal character and records are of such a nature as to give the lie to any accusation of unfitness or dishonesty that may be brought against the party. If this is done the Republicans will win easily and as a matter of course.

The average voter of this county and city has vastly more intelligence and shrewdness than he or she is usually given credit for. They are not easily deceived by party platforms, party candidates or political arguments in the course of the campaign, and it would be better for all concerned if the political managers would remember this fact and govern themselves accordingly.

What the Republican party should do is to put up a ticket so good that the opposition cannot equal it. If this is done, the people may be trusted to elect it, and that without taking eight weeks to deny this, and to explain away that, and to make the people forget the other thing.

A good majority of the people of this county are Republicans. Give them a decent opportunity to stick to their colors and there need be no anxiety about the result.

COLORADO RANCHMEN PROSPEROUS.

THERE is no doubt that at the present time the ranchmen of Colorado are enjoying the most prosperous period of any in their history. Beef, dairy products, fruit, grain, potatoes and other farm products command ready sale and good prices. Besides that, farm hands are in demand at good wages in every agricultural section of the state, and the small ranchman finds it an easy matter to supplement his resources by working out for his more wealthy neighbor.

The result of this condition is to be seen in the rapid improvement that is witnessed in the farming districts of the state. There is nothing in the world more beautiful than the ideal Colorado farming valley. Broad acres of level alfalfa fields, wheat, orchards and other crops, brown hills on either side, distant mountains snow-capped in summer and suggestive of the source of the stream that runs through the middle of the valley and gives life to the various field crops and gardens, go to make up the scene. Add to these the neat houses, the barns and corrals, the little towns growing ever more prosperous and better equipped, the roads upon which constant improvement is being made, and we have the manifest proof of the way in which the desert and the wilderness is being turned into a land that for richness is not to be surpassed by any other in the world.

One of the signs of the times is the ever-increasing number of farmers from other states who are looking for opportunities in Colorado. The freedom of the state from drought, floods and cyclones, its advantages for health and climate, its richness of soil and brilliant prospects for the future are becoming known abroad and with an inevitable result. There are probably more farm buyers now in the state than there have been at any other time for the past ten years, and the results of this condition are to be seen not only in the number of the new population that is being added to our state, but in the increased prices at which farming property is held in various localities.

No one should come to Colorado with the idea that there is any free land to be had in this state. There is desert land [illegible] of getting water upon it is in most cases larger than the purchase price of land equally as good and already under ditch. Land equal to any in the state and most favorably situated can now be purchased at reasonable prices and much less than will be asked for it a few years later.

The hardy pioneers who took up the government land under the homestead and pre-emption acts are now in many cases reaping the rewards of their arduous labors and privations. The acres that have been cleared [illegible] have slowly increased and improved, now entitle their owners to rank as men of wealth, and many of the older generation are taking advantage of their opportunities to convert their holdings into cash and to seek less strenuous conditions of life for their remaining days. But the opportunities are not yet passed, even though the easily irrigated land is under private ownership. Colorado is certainly to be a land of intensive agriculture, of small holdings and of greatly diversified crops. The big ranches will be divided among many owners; the great fields of alfalfa and wheat will be superseded by orchards and gardens and vineyards. In every fertile valley of the state population will be dense, and this denseness of population will make it possible for our rural population to keep in touch with the social and intellectual life of the nation and guard it from those evils that arise from solitude and mental inactivity.

The outlook for the agricultural interests of Colorado is a most promising one, and the farmers from other states who are now looking over the ground in Colorado will make no mistake in casting in their lot with us and doing their part to develop our magnificent future.

FOREIGN SENTIMENT TOWARDS AMERICANS.

WE HAVE heard a great deal recently about foreign sentiment towards Americans, and judging by some articles we might conclude that continental Europe is ready to take up arms en masse if not quite unanimously against the Yankees and to drive them out of the commercial field.

We would naturally expect, however, that such statements as these would prove to be exaggerated. Nothing is easier than to draw conclusions as to national character or feeling from those of a few individuals or a single class, but nothing is more dangerous. Because a few manufacturers whose business is injured by American competition or a few farmers who are forced to sell their products at a lower price because a vastly better article can be imported from America and sold equally low, is not a reason to suppose that the people of Europe are going to rush headlong into a military or commercial war with the United States.

One of the most fair-minded and apparently reliable summaries of European sentiment towards Americans is furnished by Mr. Frederick W. Holls, United States member of the international court of arbitration, who is thus quoted in a recent interview:

> The present feeling in Europe regarding the United States cannot be characterized in one phrase. That it is not everywhere friendly must, I fear, be admitted. But this is not strange. The strength and prosperity of the great, peaceful, "unmilitary" republic is not pleasing to its opponents and critics of our institutions. Then there is natural jealousy in commercial and industrial circles of our economic progress. But it should be remembered that governments of all forms are averse to having their foreign policy dictated by theorists or even by exporters and manufacturers. Any policy which even seems to be dictated by class instead of by the highest interests of the whole people is doomed to failure by its inherent weakness. Hence, I believe it is a long way from commercial jealousy and the excited articles in the press about "American danger" to political or even economic hostility.
>
> The talk about a combination of the European powers against the United States is fanciful and impracticable. They have greater causes for quarrels among themselves than any of them has against the United States. All talk to the contrary in parliaments and in press is, in my opinion, merely a cover for an increase in tariffs by the particular powers. Of this we certainly cannot complain. It vindicates our own policy of protection. [illegible] It is not even desirable for us; for it will compel us to adopt a policy of reciprocity which ought to be a permanent benefit to the country.
>
> I feel confident of one thing, whatever may be the attitude of particular governments or classes, the mass of the common people in Europe, not only in England, but on the continent are, suffering from various domestic causes. They view the increased prestige and power of the United States in the world of politics with hope and delight. They recognize our new position as a great guarantee of peace and progress.
>
> Whatever objections are raised to our assertion and vindication of the Monroe doctrine, in its extended form, come from theorists only, and, so far as my observation goes, meet with no popular approval whatever. Our claim to control and own absolutely and exclusively any and all isthmian canals is cordially recognized, not only on the continent, but by most authorities and organs of public opinion in Great Britain. With skillful diplomacy on our part, it ought to be easy to arrive at an agreement which should be entirely satisfactory to American public opinion without impairing in the least the present cordial relations existing between the two great English-speaking nations.

The view taken by Mr. Holls is unquestionably the correct one, and its dissemination among the people may go far to repair the harm that might come from the sensational and unreliable rumors to which so much space has been given recently.

A QUESTION OF COMPARATIVE AREA.

To the Editor of the Gazette.

Will you please tell me the area of the Philippine islands, and how does it compare with that of the United States. T.

According to the best authorities there are about 1,400 islands in the group called the Philippines and now the property of the United States. Many of these islands have never been surveyed and their area is largely a matter of guess work. The best authorities estimate the total area at about 114,350 square miles, of which about 75,000 is contained in the two large islands of Luzon and Mindanao.

The total area of the islands is a little larger than that of Arizona and about 10,000 square miles larger than that of Colorado.

The total territory of the United States is divided as follows:

	Square Miles.
States, territories and District of Columbia	[illegible]
Indian Territory	31,000
Alaska	531,000
Hawaii	6,640
Puerto Rico	3,600
Guam	200
Samoan Islands	79
Philippines	114,350
Total	3,625,869

The Y. W. C. A. of this city is fortunate in securing permanent quarters. This organization is doing as effective work among and for the young women of the city as the similar society is doing for the young men. It deserves general and cordial support.

The United States not only has the right under treaty, but it is its duty under a formal agreement to protect the trade across the isthmus of Panama from any interference.

"Coin" Harvey thinks that Bryan deserves the chance to be beaten a third time. The proposition is an attractive one, but is it worth while?

FROM THE STATE PRESS

THEODORE ROOSEVELT

As a vice president Colonel Roosevelt wears very well. It has always been considered that election to the vice presidency meant obscurity politically and every other way for the successful candidate. And as a general rule this is the case. Nearly everyone can recall the names of the presidents of their own generation at least, but few there are who can recall the names of the vice presidents. "Teddy" Roosevelt, however, seems to be a notable exception to this rule. Though occupying the position of vice president he is becoming better known every day and is in great demand as an "attraction" whenever it is desired to congregate a crowd. And the esteem in which he is held is attested in the size of the crowds that gather and the enthusiasm with which he is received. Colonel Roosevelt has in his make-up a happy combination. A dashing rough rider and soldier, an enthusiastic hunter, a believer in the strenuous, active life, an athlete by training, a deep literary scholar, a statesman, a lover of law and order, an admirer of children, advisor and counselor of the young, and above all a devout patriot, why should he not be admired. His manner and bearing is unostentatious, and he is easily approached. A champion of no class but a believer in fair play for all alike, and a good "mixer" with the common people. Contemporaneous politicians who have their eyes set upon the presidency can well view these characteristics of the dashing rough rider with misgivings and alarm.—(Red Cliff Blade.

"Teddy."

He was everybody's favorite, everybody's hero, the lion of the hour.

The Republicans all said: "We are for Teddy."

The Democrats all said: "We are for Teddy too, so that if our man can't win we will know that Teddy is to be the next president." Senator Patterson said this and all the others agreed with him.

Teddy is all American. This is why he is the favorite in the west. He did not come to Colorado Springs to open his campaign or launch a presidential boom. He came to visit the people that he long since learned to like, the mountains that he long since learned to love. He came to help celebrate the completion of the first twenty-five years of the history of Colorado as a state. He came to attend the reunion of the Rough Riders, of which he is the chief figure. He cannot help it if the people will insist that he shall be the next president. And when you mention that subject to him he always smiles with a "thank you" and that is all he will say.

Teddy is a many-sided man, a most remarkable man. He presents a sort of social paradox. He is an aristocrat and he is a commoner. He is a man of wealth and high station yet he is the social equal of all, he is a warrior, and he is a statesman and a diplomat, and he is a scholar, he is the polished gentleman and he is the rough rider, he is at home with kings and with commoners. He has the adaptability for doing a great many things and he does all of them—does them with might and main and does them thoroughly and well. To sum it all up, he is the typical all American.

And what more can we ask of the man who shall be president of this country? We want no more than the typical all American. And if the west has the dictation of the matter there will be but one voice and that will be for Teddy.—(Salida Mail.

Said Vice President Roosevelt in his speech at Colorado Springs, "A stock of glorious memories means more than any other element in the building up of national character." That is a brave saying. Let us hope and believe that coming years will be rich in memories of national faith toward weaker people, that the knighthood of America may be without fear and without reproach. (Gunnison News.

Teddy Roosevelt is a friend of the west—he always was. His visit to Colorado Springs this week was an honor to the whole state, and his manly utterances, full of candor and patriotism, have won him honor and esteem from a state that admires men.—(Telluride Examiner.

One of the reasons why Theodore Roosevelt is so popular in the west is that he is by nature a western man. He does not hesitate to say what he thinks in plain and unmistakable language. That commends itself to a western man quicker than anything else on earth. Another reason is that he is a friend of the west, and we like those who are willing and anxious and able to help us. Roosevelt has declared himself unreservedly in favor of national irrigation. This of itself is enough to warm the hearts of the ranchmen of the state.—(Aspen Times.

THE GAZETTE

—The Quarto-centennial edition of the Colorado Springs Gazette in addition to setting forth the beauties and resources of the state in general, contained a splendid full page write-up of Glenwood Springs, which, in addition to giving facts and figures favoring Colorado's leading resort, was elaborately illustrated by half-tone cuts showing up our leading attractions most advantageously. The Gazette is nothing if not enterprising. (Glenwood Post.

The Quarto-centennial edition of the Colorado Springs Gazette was as good as the far-famed and self-praised New Year editions of the Denver papers and without the bombast and flurry so characteristic in the latter. In many respects the Gazette equals, and in some features even surpasses the Denver papers. Its reproduction of [illegible] any paper in the state. Editorially it is very able and its discussions of public questions and current events are valuable and instructive. In every way it is a paper that would be a credit to a city much larger than Colorado Springs.—(Sugar City Herald.

"Fitz-Mac," Colorado's most finished and forceful writer, makes his reappearance in last Sunday's Colorado Springs Gazette in a review of the newspaper career of Judge C. C. Goodwin, editor of the Salt Lake Tribune. Fitz-Mac recently spent several months on a vacation, a portion of which he spent in Salt Lake. His review of Judge Goodwin's newspaper career is a magnificent tribute to the greatest editor of the west, indeed America has few who are his peer. Those familiar with "Fitz-Mac's" discussion of public men and matters will bear witness that he is keen and discriminating in his diagnosis and does not hesitate to record his impressions in words whose meaning it is not possible to misconstrue. It is this feature that gives to his discussions of familiar figures their spicy flavor and a powerful influence in the making or unmaking of the subject. In "The Record of a Great Editor" he has compiled an interesting chapter of western history and every word he has uttered is absolute truth. (Telluride Journal.

Inspiring Confidence

The best means of doing so is by acting fairly and frankly with all, hiding nothing in the plan of operation, explaining clearly whatever may be subject to misunderstanding, living up to the charter and by-laws in all cases, and publishing, periodically, a complete and detailed statement, so that all may know what you are, what you have, how you got it, and in general, how you are getting along. All of this, and more, is done by The Assurance Savings and Loan Association, whose booklet, printed by-laws and official statements furnish all the leading facts concerning that institution.

It is a dangerous and pernicious imposition on any community where the lives of its citizens are [illegible] in such [illegible] persons. While we have no direct evidence as to the number of such impostors I should say there were on an average of twelve yearly who attempt to practice medicine without the accredited permit. They are often found at resort hotels where the indefiniteness of crowds affords temporary immunity from investigation and before the local practitioner is aware the new-comer will have established quite a little practice. While there may be some bona fide doctors who would not scruple to practice without a license no man of honor would stoop to such a thing. The danger to the patients is not so great but that does not mitigate the offense."

"There never was a dog that was written about as Sir Bedivere was. The Associated Press would print stories about him and when he died, he received a longer obituary than many public men. At one time a well known artist in Scotland held a reception for Sir Bedivere and he was the model of a St Bernard before many a canvas."

Frenchmen Here Buying Pig Iron

"The demand for iron is so great in this country that orders have to be placed eight months to one year ahead to insure delivery," said S Eisenberg yesterday at the Antlers hotel

Mr Eisenberg and Emile Sevier of Paris are in the states purchasing large quantities of pig iron for the Compagne d Outillage an extensive steel and iron concern with head quarters in Paris Strasburg Alsace Lorraine and St. Petersburg

The orders were placed with iron foundries at Birmingham Ala and Pittsburg Pa. Besides this they are seeking to place on the American market a new composition of steel especially adapted for mechanical purposes and all kinds of fine tools used in mining

"We Europeans can buy iron cheaper in this country than Americans can. This sounds unreasonable but when you realize that we have to pay duties on our purchases it is only fair that the prices are lowered to us else we could not buy iron here at all

"It will not be long before Russia will become a strong competitor in the production of iron against the United States. As soon as the Transcaspian and Transiberian railroads are completed Russia will begin to supply iron for Europe to the serious diminishing of the trade of this country. Russia has entire mountains of pure iron. Some of these mines are being worked now, but all the output is consumed in furnishing materials for the new roads. The Transiberian railroad will revolutionize European commerce and open up a new world of resources. Hitherto Siberia has been shut off from the world by not having modern transportation facilities

"There is one thing about western business men that particularly distinguish them from the east. Here you are all so polite and courteous and you have time to laugh and enjoy a joke. Your life is not so machine like nor so much rush and bustle. I like the west and its progress and enterprise amaze me. It is a wonderful country—like another world

"It was so hot in the east and south we could no longer endure it, and friends advised us to come west to cool off. We are enchanted with our trip here as everything is so much ahead of our anticipations."

The Young Woman's Christian association is going to have a new home. At a [illegible] of the directors yesterday morning it was decided to purchase the Durkee property on the corner of Boulder and Weber streets. The sale was made through Charles P Bennett Realty Co. The price paid was about $15,000 and it was only through Mrs Durkee's magnanimity that the higher bids which were made were not accepted

The house contains 1[illegible] rooms and is thoroughly modern throughout. Plans are now under consideration for transforming the attic into a number of rooms. Surrounding the house is a fine lawn with shade trees. A large stable is also part of the property

A committee composed of Miss E T Brindley, Mrs. Irving Howbert and Mrs William Lennox was appointed to adopt a seal and proceed toward incorporating the association

Gazette Wants Pay Best

RETURNS FROM THE WILD HORSE ORE RUN NEARLY $200 TO THE TON

The Strike Is the Most Important Made in Cripple Creek in Years—Samples Taken Yesterday Averaged as High as $374 Per Ton for Five Feet of Ore.

The returns which are being received from shipments of the rich ore in the Wild Horse mine go to show that the recent strike is the richest thing in the camp, and one of the best developments which have taken place in the last two years. Returns were received at the offices of the company yesterday morning on a 22-ton shipment, which went at the rate of 9.77 ounces, or nearly $200 in gold to the ton. This is the lowest grade which the new workings are showing. The mine is entering upon a new era so far as production is concerned. Day before yesterday 35 tons were shipped, yesterday 40 were sent out and today 60 tons are to be sent to the market which, it is expected, will run even better than the lot which was heard from yesterday.

The rich ore has been opened in two levels, in both of which it is showing up magnificently, although in the deeper one the showing seems to be a little the better. Here the shoot has been drifted on for 15 feet, and is now five feet wide, and yesterday four separate samples were taken from the breast, across the entire width of the shoot. They indicate values of 20, 14.61, 17.92 and 16.70 ounces in gold to the ton, respectively. Two feet of the vein were sampled and found to average 40.50 ounces, or $818 in gold to the ton.

From the fifth level drift has been sent out 10 feet to the north and 20 feet south. The shoot is not quite so wide as it is in the lower level, but fabulous values are being opened up. A sample taken yesterday went 511.20 ounces, or $1,025.40 in gold to the ton.

The importance of this strike is not so much in the size of the shoot, and the very high values, although these are more important than can be easily told, because rich and large shoots have been opened before in Cripple Creek; but its importance lies in the fact that in this part of the district this kind of an ore body is something entirely new and its discovery is tenfold more momentous to the camp than if made on Battle mountain.

BEN HUR CAPITAL INCREASED

A Decisive Majority Favored the Plan—The New Issue of 350,000 Shares Will Be Sold Pro Rata at 7 Cents.

The special stockholders' meeting of the Ben Hur Mining and Milling company was held yesterday morning in the offices of the president, F. H. Pettingell. Out of about 900,000 shares outstanding there was represented at the meeting, either in person or by proxy, 766,597 shares, 737,597 of which were voted in favor of increasing the capitalization and 23,000 against it. The vote was very decisive, much more than the necessary two-thirds to increase the capital stock and is a testimony to the confidence in which the present management is held.

The capitalization of the company is now $1,250,000, and the entire increase, 350,000 shares, is to be offered to stockholders of record at seven cents per share, according to a resolution which was adopted at the meeting, and to the action which was taken at a directors' meeting held subsequently. A circular stating this was mailed to stockholders yesterday, informing them that they would have the first opportunity to subscribe for the stock in amounts pro rata to their holdings. A blank application was sent out by which stockholders could notify the company of the amount entitled to them, and also state what extra amount they would like to subscribe to, in the event that the issue is not all taken up by the original parceling. All subscriptions must be made on or before September 7, 1901.

The company will now be able to prosecute some of the most vigorous work going on on Gold hill according to the plans which have been fully stated in these columns. The demurrers to the increase thought that the company would better be left with property leased and a small capitalization, rather than with property under active company development and a larger capitalization.

CARRIE S. WILL BORROW

The Sum of $6,000 to Pay Off Present Indebtedness—An Arrangement to Protect the Stockholders.

At a meeting of the board of directors of the Carrie S. Gold Mining company held in this city today, it was decided to borrow $6,000 for a period of six months and give a trust deed upon all the property of the company, the proceeds to be used for the purpose of paying off all of the indebtedness of the company, including the two sheriff's sales which have heretofore been made. There is now on hand, as voluntary subscriptions of the stockholders, approximately $5,000 for the purpose of protecting the company. This amount will be loaned to the company and an additional sum of about $1,000.

The president of the company, Mr. S. R. Bartlett, states that any of the stockholders who have not made a voluntary assessment and who desire to protect their holdings may do so by sending the voluntary assessment heretofore called for to C. N. Smith, treasurer, at any time between now and September 1.

"This note will be dated September 1 to bear 8 per cent interest and this plan will be carried out beyond any question and seems to be the best way to protect all of the stockholders of the company." When this note is executed there will be no other indebtedness outstanding.

Each stockholder joining in this loan will receive a certificate showing his interest in the note.

GERMAN-AMERICAN IMPROVEMENT

Ore in the Winze Is Now of a Good Shipping Grade—Carload Will Leave in a Few Days—Electric Hoist Purchased.

The showing on the Puzzle claim of the German-American company has greatly improved in the last few days, and the lessees are now saving good ore for shipment. In winzing on the vein from the level of the Ophelia tunnel they encountered good ore in bunches right along, and at times the shoot would have a decided appearance of strength, but the showing which they now have is more encouraging than any since the vein was first opened up. Three feet of the rock will screen good pay, and by careful sorting much of the values in sylvanite could be saved.

The ore which they have now taken out will be shipped the middle of the week, a car load of it going out at that time. The rock which is being broken down is taken out only in the course of development work.

Hatton and company, who are leasing on the claim, have just purchased an electric hoist which is to be installed in the tunnel level and which will greatly facilitate the work, as the hoisting from the winze has been done with a windlass.

The Puzzle claim is located on Gold hill, and is being explored at a depth of about 400 feet. It is the intention of the lessees to upraise from the tunnel for a shaft when the indications in the mine warrant it. At the present time their work can be carried on through the tunnel very economically.

MINING NOTES AROUND TOWN

The sudden recovery in Eclipse stock yesterday gave rise to some rumors to the effect that rich ore had been opened in a new place in the mine, and that a general improvement had been noted in the property which had checked the downward course which the shares were very plainly following last week. The officers of the company, however, stated that, to their knowledge, there had been no new developments in the mine. It had, they said been looking well right along, and it was their opinion that the movement in the stock had been entirely due to manipulation. The shares sold as low as 11¾, but recovered to 12¼ yesterday, under a very good demand.

DEERHORN MINE IS SHIPPING GOOD ORE.

It is reported that the Deerhorn mine, near Gillett, is producing about four cars of ore every week. The property was purchased sometime ago by W. S. Stratton after many operators had been unable to make the proposition pay, and the ore which is now being taken out is said to be of a very fair grade, and there is an abundance of it. The [illegible] Deerhorn tunnel, and a winze sunk therefrom has exposed the good values. The success with which the property is being operated means a great deal to the north end of the camp. Mr. Stratton has great faith in this end of the district, despite the fact that his first discoveries were made in the south end, and he is doing the camp a great service by expending his wealth in showing up the resources of this locality.

WILL SINK SANTA RITA SHAFT 100 FEET.

The Atlantis Mines corporation, controlling the Santa Rita mine on Squaw mountain, is concluding arrangements to sink its shaft another 100 feet, and work will be started within a short time to put it to the 700-foot point. In the sixth level the ore shoot in the north end has now been proved up for a distance of 130 feet, and during all of that distance it has shown up most favorably. Stoping will soon be started. In the other south level the showing is also gratifying, and the mine is fast developing into an important one. A shipment of 25 tons was marketed the first of the week, all of it taken out in development work, and all of it sent to the smelters. Another shipment will be ready to leave in a few days.

CORIOLANUS SHIPPED A CAR YESTERDAY.

A shipment of a car of ore was marketed yesterday from the north end of the Coriolanus property on Battle mountain, under lease to Charles Swanbeck and associates. The ore is coming from the 250-foot level, and assays indicate that it will return values of $50 in gold to the ton. The lessees have a very well defined vein opened up, and the shoot [illegible]. The company is doing good work in two levels, but no encouragement has attended their operations for several weeks. The showing which they obtained in the Ajax vein at a depth of 300 feet was so favorable, however, that they are continuing work, hoping to encounter another and more permanent shoot.

REPUBLIC CIRCULAR AND ONE FROM SANTA ROSA.

The Republic and Santa Rosa companies mailed circulars yesterday to their respective stockholders giving notice of an issue of stock pro rata. The Republic company is offering 62,500 shares of their 250,000 now in the treasury, at 5 cents per share. This will give [illegible] for every 20 which he holds. The sum received is to be used by the company in liquidating the present indebtedness and in meeting current expenses. The Santa Rosa company is offering its entire treasury stock, 250,000 shares, pro rata at 1½ cents per share. This will give to each stockholder one additional share for every five which he now owns. The company is in debt to the amount of about $1,750 and cannot be admitted to the listed department of the Colorado Springs Mining Stock exchange until this debt is discharged.

PLEASING RESULTS

DAVIE RETURNS FROM FLORIDA AND NEW YORK.

Mr. R. P. Davie returned Sunday evening from New York, having taken an extensive trip covering Florida, and thence by sea to New York and stopping in Buffalo to view the exposition. He reports that everywhere in the east the feeling is very good, and the financial outlook exceedingly encouraging. In Florida he spent some time looking over timber lands, with a view to investing, but came away without having closed up any deal. In New York he found business good, despite the summer season, and he thinks that the prosperity which is now so manifest in all the eastern cities will soon become more evident in the mining stock circles here.

IMPROVEMENTS ON THE PHARMACIST PROPERTY.

A good line of improvements are in progress on the property of the Pharmacist Gold Mining company on Bull hill. In the main shaft two shifts of workmen are pushing sinking, it being the object to put it to the 700-foot point. The lowest level now run is at a depth of 600 feet. Some very good ore has been opened at this depth and much is expected of the new level. In the old [illegible] a small force of men is at work cleaning them up of any ore which may be found, and a shipment of one car will be made in a day or two. The work of moving the ore house to the edge of the dump was started yesterday, and its new location will mean that ore and waste can be taken care of much more expeditiously. The several sets of lessees which are working the claim report satisfactory progress in ore and in dead work, and the property seems to be looking up considerably.

GOOD STRIKE ON THE PUFFER CLAIM.

A good strike has just been made in the 125-foot level of the Puffer claim by P. T. O'Hara and associates, who are leasing on the claim. In drifting on a vein at that depth they have just opened up 18 inches of sylvanite which averages between $80 and $150 in gold to the ton. The strike was made at a distance of about 10 feet up the hill from the shaft, and the lessees are confident that they have the extension of the E. Porter-Gold King vein. They are saving a good amount of the ore, and expect to have a good-sized shipment ready for the market in a few days, and that they will be able to maintain a regular production from now on. The Puffer claim is owned by the Anaconda company.

MORNING STAR CLAIM WILL BE LEASED IN BLOCKS.

The Acacia directors have just granted a lease on the south end of their Morning Star claim to the Bankers Leasing company, the people who have held all of the claim under lease for some time. The south end includes their 425-foot shaft, and they will continue their work as they have done, the lease having been given on the same conditions as the old one. The north half of the claim is to be leased in blocks 200 feet square, and it is thought it will soon all be under active operation, as there are several applications now on file. It is thought that this method will insure the best development of the property. The Burns claim has undergone a very marked improvement since it was divided up into small blocks and leased.

STORIES OF THE STREET

Colorado Springs People Are Talking About It on Every Corner.

It is sometimes an easy matter to fool the public, but you can't keep it up very long. They are sure to find you out, and every time a man is fooled another skeptic is made. Skepticism is allowable when reading in a home newspaper about some incident occurring in San Francisco or Iowa; but the circumstances are entirely different [illegible] you know, whom you can see and with whom you talk it over. This is the kind of evidence at the back of Doan's Kidney Pills, [illegible] by home people, and the astonishing local work they have been doing has caused more talk among our citizens than the doings of any other modern wonder. Read the following:

Mrs. H. C. Hughes, corner of Cascade and Vermijo streets, says: "Doan's Kidney Pills helped me amazingly and I know they are a reliable remedy for the kidneys. I caught a cold, which settled in the [illegible] and caused me so much pain I was quite miserable. Reading an advertisement in our paper about Doan's Kidney Pills, I sent my son to Jones & Wellington's drug store, 109 N. Tejon street for a box. The treatment relieved me almost at once and up to date there has been no recurrence of the symptoms."

For sale by all dealers; price 50c. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no substitute.

COLORADO SPRINGS MINING STOCK EXCHANGE

[Colora]do Springs, Aug. 19.—The min[ing] ... today showed a very de[cided im]provement, with better trading ... rulings decidedly higher. ... a very good demand on all ... and the feeling was decidedly ... both in the professional ranks ... the traders on the floor. At the ... last week the market was in ... could manifest all ... in a very short time, and ... today clearly indicates that ... has been taken advan[tage] ... The stock which showed the ... strength was Elkton, which sold ... to be had at that ... This substantial advance is ... from the floor to the excellent ... which the property is mak[ing] ... to the spirit of investment ... is out after the more popular ... Among the latter there are ... with Elkton, Gold Dollar, Mol[lie] ... Vindicator, Portland, Eclipse and Helen B., which were among the features of the two calls yesterday. Gold Dollar was up to 20 under a good demand, while Mollie Gibson, which opened with 200 shares going at 35, closed at 37. Vindicator advanced two cents on light trading to $1.15 and Portland was active at $3.08. El Paso settled slightly to 54¼, but Golden Cycle was strong at 65, and Isabella went up to 46½. Moon-Anchor was in demand at 31½. Eclipse was one of the features of the trading last week by the heavy way in which it was sold, but it recovered in good shape today, advancing steadily from 11¾ to 12¼. Helen B., the little Ten[derfoot] hill stock, was in good demand, selling up to 3¾. Mollie Dwyre was in good demand, but not quite so strong, closing at 6¾. Some speculative interest is felt in these shares due to the company's relations with Pointer. The latter stock, by the way, was fractionally stronger at 8¾.

EASTERN MARKETS

New York, Aug. 19.—Dealings in stocks today were too small to offer a broad basis for generalizations. But the fact is significant, that very few stocks were offering for sale, holders apparently being content to retain their holdings in spite of some of the developments unfavorable to values so that the demand was small, though it was sufficient to overcome the opening decline and establish a higher range of prices than those at the close of last week. The additions to the ranks of the striking steel workers over Sunday was responsible for the opening heaviness not only in these stocks, but in the general list. The interests involved in the strike are so large that its vicissitudes affect the values of all securities. The market guardians for the steel stocks supported them and the starting of some of their mills had a reviving effect. But they did not fully share in the later recovery of the market which carried some of the railroad stocks substantially over Saturday's prices. The activity and strength was confined to a few stocks only and was apparently due to causes individual to those stocks.

There was greater confidence felt in the money outlook than on Saturday after the bank statement. This feeling was due to several causes. The unexpectedly large decrease in cash was said to be due to the retirement of circulation by the absorbed Bank of the Republic. The sub-treasury has made a small contribution to the money market since Friday by reason of large pension payments and disbursements on account of Philippine expenditures. But the sudden weakness developed in the foreign exchange market was the dominant influence in causing a better feeling over the money outlook, on account of the assurance afforded that gold from Europe will be forthcoming to meet any urgent needs on the part of New York. Offerings of bills against wheat exports, purchases of stock for London account and a cessation of the demand for repayment by syndicates of the loans from European borrowers were all influential in the weakness of exchange. The market closed firm but very dull on the last rally. Railroad bonds were little dealt in and were ir[regular].

SANTA RITA MINE

Atlantis Mines Corporation Has Complete Title to Valuable Property—Heavy Ore Shipments Are Going Out.

Cripple Creek, Aug. 19.—The Atlantis Mines Corporation was today given complete title to the Santa Rita mine on Squaw mountain by the Santa Rita Gold Mining Co. About three years ago the Santa Rita Co. gave a lease and bond to the Atlantis corporation, extending for two years, and at the expiration, granted the company another year in which to take up the option. The price was fixed at $100,000. A year ago last spring, the mine was started on a paying basis by Eugene Conant, to whom a great of credit is due for putting operations on a substantial basis. The price is a very low one for what the mine amounts to today, and is considered a great pick-up for the Atlantis Co. Shipments have been sent out regularly for the past 16 months, and the property is in better condition today than at any time since the finding of ore, in what was then outside territory.

W. R. Armbriester, leasing the Kimberly workings of the El Paso Con. Co., yesterday sent out a high grade carload of ore from the Dentrey sublease, which is reached from the 350-foot level. The ore is expected to return $130 per ton or better. On Saturday a carload of $40 ore was shipped from the lease.

The Midland Terminal Railway Co. reports handling the greatest tonnage of ore in the history of the road during last month, when 35,000 tons of ore were sent out from the mines of the district. The report, so far this month shows another record breaking period. Considering that there are now two roads in active competition, the report of the Terminal indicates a most encouraging state of affairs. The most gratifying feature of the condition of affairs is that the large mines of the district are sending out an increased tonnage and many of the smaller properties, operated by lessees, are rapidly coming into the shipping ranks. The Elkton, Golden Cycle, Portland, Stratton's Independence and many other of the big mines are making preparations to handle a big production in the future.

The management of the Victor mine has platted its property in blocks for leasing and already four sets of operators are at work. Brooks and Hambaugh have already opened up a 15-inch shoot of $200 ore that was previously not known to exist. The first shot was put into the hanging wall in the third level and resulted in the strike.

Screenings from the streak run $2,000 to the ton. Miner and Camp are cleaning out old stopes in their block. The royalties exacted are 35 per cent. and the terms of the lease require no development.

Swambeck and associates, leasing the north block of the Coriolanus property on Battle mountain, have a shipment of 20 tons which will go out this week. The ore averages close to $50 per ton.

Victor, Aug. 19.—The best ore that has been opened in the Wild Horse mine is in the 650-foot level. At that depth, the immense vein is rapidly running into high grade ore and out of eight samples today an average of 17 ounces or $340 in gold to the ton was obtained. A grab sample from the sacked shipment from the winze sunk in the 550-foot level gave an assay of $10,300 to the ton. The winze is down to a depth of about 65 feet below the level. A shipment of 60 tons of high grade ore will be made tomorrow from the Wild Horse property, and the chances are that the average returns will be close to 10 ounces or $200 per ton. Work is progressing at a rapid rate and new surprises are being met with every day. The company is very much gratified over the showing in what was thought a year ago to be a low grade producer. There is a great deal of speculation in regard to what deeper levels will develop in the Wild Horse, and if the general rule holds good in this case the mine ought to rank with the best producers in the district very shortly.

AN ORDINANCE

Colorado Springs, Colo.,
August 16, 1901.

The following ordinance was read before the city council at an adjourned meeting held on August 14, 1901, and was ordered published.

K. M. MacMillan,
City Clerk.

AN ORDINANCE RELATING TO THE POLICE DEPARTMENT AND GIVING THE RIGHT OF WAY OF THE STREETS AND OTHER PUBLIC PLACES OF THE CITY TO THE POLICE PATROL WAGONS AND AMBULANCES.

Be it ordained by the city council of the city of Colorado Springs:

Section 1. The right of way of the streets, avenues, lanes, alleys and other public places of the city of Colorado Springs is hereby given to the police patrol wagons and ambulances of the city, with the horses attached thereto and the officers in charge thereof, in all cases when in the line of duty; and it shall be and is hereby made the imperative duty of all persons occupying the streets, avenues, lanes, alleys or other public places within the corporate limits of the city of Colorado Springs with wagons, teams, horses, cars, engines or vehicles of any description on the line which any of the police patrol wagons or ambulances of the city may be drawn or required to go in the performance of police duty to yield the right of way in any such street, avenue, alley or other public place, to the requirements of said patrol wagons or ambulances of said police department or the horses attached thereto, or the officers in charge or having control thereof.

Section 2. Any person or persons failing and neglecting or refusing to comply with the terms and provisions of the foregoing section or who shall in any manner impede or obstruct the progress of any patrol wagon, ambulance or any other vehicle of the police department of the city of Colorado Springs or the horses attached thereto or the officers in charge thereof, shall upon conviction be fined not less than ten dollars ($10) nor more than two hundred dollars ($200) for each and every offense.

London Aug 6—King Edward is the terror of society Since his accession to the throne he has developed a mania for etiquette court proprieties and [illegible] that [illegible] ridiculous and is fast becoming [illegible] those who have [illegible] to his imperious domination in this respect Affairs have come to such a pass that an invitation to a function where he is to be present is received with [illegible] Refusal [illegible] the case of sickness [illegible] of the question The slightest breach of some [illegible] into ill humor and the unfortunate offender is [illegible] by the text [illegible] of a letter of severe reproof by direction of his majesty His [illegible] age nor sex [illegible] nearly old enough to be his mother comes under the epistolary lash as quickly as a Clara de Vere of 20 summers And then the thing becomes public gossip within 48 hours [illegible] of course adds to the humiliation and [illegible] Some of the society [illegible] criticism but without any apparent effect—Edward [illegible] a firm believer in the doctrine that the king can do no wrong that he is the fountain of honor and [illegible] the necessary distinction of rank and must serve and wait It is an open secret that Queen Alexandra has less freedom of action than the [illegible] in the kingdom The king and herself are only on formal speaking terms and all her social movements are regulated [illegible] She is not allowed to have any will of her own any voice in the persons [illegible] or occupations in which she shall engage for a single day The orders run in this fashion Her Majesty Queen Alexandra by direction of the king will breakfast at 8 o'clock lunch at 12 drive between 3 and 4 dine at [illegible] a royal tread [illegible] ever since the death of Victoria Before that [illegible] pretty much to her own devices the king as Prince of Wales having other things to attend to But since he stepped into the greatest inheritance that living man or woman can receive the king has been inflated with the most extravagant ideas of his own importance and of the royal prerogatives That he takes himself entirely too seriously all sober minded citizens see and that the prerogative game is being played ad absurdum every one recognizes But there he is and there is nothing but submission for the set that consider themselves [illegible] aristocratic salt of the earth in the hereditary privilege to be in [illegible] communication with his not specially attractive personality [illegible] appears now the [illegible] and aim of the king's existence So far as government is concerned [illegible] sign the papers [illegible] before him But in society he is a despot

There is an uneasy feeling in the public mind respecting India and it is all the deeper for the reason that the government is [illegible] endeavoring to shroud the situation in mystery and keep back the facts No one doubts the bravery of the Afghans and if they determine to take the field there can be no question of their ability to prolong a contest that in the final [illegible] may be fraught with the most momentous consequences Nothing can be learned at the war office In fact no one there knows anything [illegible] coterie of officials who are directing affairs Probably even they do not know much which is of any real value except that war signals are in the heavens Previous to the outbreak of the Boer war they were densely ignorant of everything that they should have known They then assured the world that ten or fifteen thousand men would overrun the country in less than 90 days Nearly thirty months have passed since then upwards of 70,000 men have been killed disabled or died from disease Ten times twenty thousand soldiers have been sent to South Africa and the Boers are still [illegible] British commands and baffling every effort to bring the war to an end Shall this disastrous chapter in British history be repeated in the far east during the year? That is the thought in every man's mind although of course it finds no expression in the newspapers or anywhere else

The conviction that Russia is inciting the Afghans to action is general and intensifies the distress We are endeavoring to comfort ourselves by the reflection that Russia has just now all the work she can well attend to in China and elsewhere but this is [illegible] certainly—Russia has abundant [illegible] much to herself she could be of tremendous service to the Afghans The advice and co-operation [illegible] she could [illegible] with the Afghan forces would supply whatever inexperience they may lack in fighting [illegible] What the condition of our own Indian army is [illegible] can tell except from the official reports and no [illegible] them any more The truth is that the men in command at the war [illegible] are therefore incapable of building up [illegible] fighting [illegible] Russia undoubtedly sees all this clearly and that whatever designs she has on British territory this is the time to push them with all the force at her command

While the country is awfully sick of the war in South Africa the people will not give up the fight but will stand by the government until the end comes Then there will be an overhauling of [illegible] and the [illegible] will have to face the music During the past two years [illegible] interest of the [illegible] have been laid on the shelf and the great Liberal party which [illegible] legislation has been [illegible] into discordant and warring factions Nominally an opposition many of its foremost leaders are supporting the government in all its inhumanity in South Africa so that Chamberlain and his stockjobbing [illegible] have everything their [illegible] performances will inevitably put him out of politics in the end If he [illegible] part in the empire it is gone This is the opinion of his enemies but of his friends When the now broken and shattered Liberal party is again a cohesive force capable of doing something it will have another leader He is [illegible] from him [illegible] at the head of [illegible] contending forces

The aristocracy as they are called are still in a tangle respecting their [illegible] and privileges at the forthcoming coronation What is it all about? Simply this a lot of middle aged men that call themselves nobles whose heads are white who have children and grandchildren are contending in absurd rivalry as to which of them shall hold certain lackey positions in the royal pageant One wants to carry the crown and another the orb A third wants to hold up the king's arm and another is envious of giving him a glove There is a long list of these [illegible] blooded chaps as eager in the pursuit of them as are soubrettes in their hunt for eligible berths in a comic opera A court of claims has been appointed to consider the whole business and before [illegible] Bull's hard earned guineas [illegible] should lie awake of nights striving for one of these badges of servility even to a king is incomprehensible to men of common sense But there they are and there is nothing to do but laugh at the crowd The English aristocracy [illegible] either ridicule or shame—that is the great majority of its members Most of them are cads of a very low order

If the rich Americans who come here preserved and published when they got home the begging letters they find in their mail every morning it would make immensely interesting reading I met one of these gentlemen the other day I manage to visit England and have a short run on the continent every year said he but these letters soliciting all sorts of things destroy all the pleasure of my vacation Look over this batch of applications ten of them I got this morning I expect ten more tonight [illegible] see for yourself what they are They run all the way down from a clergyman [illegible] to restore an old ruin of a church to a widow who wishes to get money to educate her son I am not one tenth as rich as I am reputed to be and I have [illegible] pet charities at home giving them all that I can afford To be waylaid and harrassed here is one of the terrors of travel

The fact of the matter is every one here believes that the American comes to Europe with millions as you say to burn and we want to do the burning act

A SUCCESSFUL CELEBRATION

(The Lamar Sparks)

The twenty fifth anniversary of Colorado's admission to the union was observed by a great celebration in Colorado Springs last Thursday Friday and Saturday The people of the Springs who are fortunately imbued with the same enterprising spirit that made the [illegible] Denver famous [illegible] gave their time money and talents freely to make the affair a hummer and they succeeded even better than they expected Notwithstanding the fact that the Boulder celebration received the official approval of the legislature the people of [illegible] things [illegible] And it takes [illegible] to make an affair of that kind [illegible]

Colorado Springs has [illegible] business blocks and office buildings that would do credit to a city five times its size All of these [illegible] decorated in gay colors and at night they displayed many colored electric lights among the bunting The historical parade on the second day was equal to anything that has been seen in the state [illegible] passing the grand stand where it was reviewed by Vice President Roosevelt Governor Orman and other notables

The vice president was of course the great attraction He enjoyed the festivities as much as any schoolboy and he seemed particularly pleased with the [illegible] and the cowboys with an utter disregard of the conventional [illegible] greeted him with shouts of Hello Teddy as they passed the reviewing stand Mr Roosevelt impresses the observer as a man who cares little for the formalities of social life—one who likes to be close to nature and to associate with those who live near nature's heart He has the self confidence and independence that naturally assert themselves in strong [illegible] their own way through life It is easy to see why the politicians of his party do not like [illegible] He is entirely too independent and forceful to be dominated by Mark Hanna or Tom Platt or any other political [illegible] Many of his political ideas are [illegible] looked at from a democratic standpoint and he is giving utterance during the campaign to sentiments that were indefensible but when all is said he remains a splendid type of the honest pushing and fearless American citizen

The feature of the second day—or night—was the banquet tendered to the newspaper men in the [illegible] hall [illegible] of the new Antlers [illegible]—a beautiful structure of brick stone and steel which will be a lasting monument to the enterprise of the men whose efforts built it Over 300 persons enjoyed the banquet about one half the number being newspaper men The Antlers chef certainly surpassed his best previous efforts in getting up the spread and that is saying a great deal Over 600 bottles of the finest champagne had been contributed for the occasion and it is not recorded that any of them were left to answer roll call the next morning Some of the editors from the back counties shied at the strange beverage at first but after a few hours they looked upon those few who did not indulge as gentlemen and patriots for thereby raising the average for the thirsty to consume Wolfe Londoner as toastmaster roasted every speaker impartially not excepting Vice President Roosevelt who made every listener feel proud that he could claim Colorado as his home The lawyers and politicians who responded to toasts saw an opportunity to get even with the press for numerous roasts they had received in campaigns and at other times and they pounded the boys in good shape W I Thorndyke the poetic genius of the Loveland Reporter spoke on behalf of the country editors and he acquitted himself with grace [illegible] (That word acquitted [illegible] sound good [illegible] any libel suits)

The menu cards were typographical and literary gems While the name [illegible] modestly in the background it is suspected that they were the production of Colonel Stevens and Wilder of the Gazette [illegible] the genial [illegible] of the press committee [illegible] instrumental in getting up the banquet and making it a success [illegible] alike to the artistic and [illegible] of the [illegible] cards and when the [illegible] the excellent fare [illegible] to the speakers [illegible] cards quickly disappeared [illegible] disposed of doubtless at fancy figures to souvenir hunters the next day

[illegible] representative at the banquet [illegible] many of the [illegible] editors were [illegible] The fact that Colonel Stevens [illegible] in arranging the testimonial of the Springs people to [illegible] for that by eating [illegible] with the [illegible] impair their standing with the high [illegible] and the [illegible] in charge of the Republican [illegible] together like [illegible] the Colonel Stevens who is now looked upon [illegible] be right in the band wagon with the keys to the patronage chest during [illegible]

There is only one thing to criticise in [illegible] Springs and that is the [illegible] extra fare for the patrons of [illegible] who can either walk or walk On the ride from the Springs to Manitou which is about as far as city park from the union depot in Denver the [illegible] stops the car and collects an extra fare from each passenger [illegible] seem to feel that the company is bleeding the [illegible] the population there is [illegible] things are not noticed [illegible]

The people of Colorado Springs have [illegible] which attended their Quarto-centennial celebration and the country press is happy [illegible] the knowledge that it made no mistake in rooting for it so heartily Twenty five years hence when this great valley is the home of a million happy and prosperous people there will be another celebration at the Springs and it will be a hummer

Mosquitoes and Yellow Fever

An experimental sanitary station was established in the open a mile from Quemados Two houses were built tightly constructed with windows and doors protected by wire screens

In one of these houses soiled sheets pillow-cases and blankets were used as bedding and this bedding was brought straight from the beds of patients sick with yellow fever at Havana For 63 days these beds were occupied by members of the hospital corps for periods varying from 20 to 21 days At the end of this occupation the men who were all non immunes were taken to quarantine for [illegible] days and then released Not one of them was taken ill All were released in excellent health This experiment is of the greatest importance as showing that the disease is not conveyed by fomites and hence the disinfection of clothing bedding or merchandise supposed to have been contaminated by contact with yellow fever patients is no longer necessary and the extremes to which this disinfection work has been carried in cases of yellow fever epidemics in our southern states has been perfectly useless

In the other house which was known as the infected mosquito building there were no articles which had not been carefully disinfected The house contained two rooms and non immunes were placed in both rooms In one [illegible] the other by [illegible] wire screen partitions only [illegible] mosquitoes which had bitten yellow fever patients were admitted In the [illegible] In the other room the [illegible] remained in perfect health In the mosquito room 50 per cent of the persons bitten by infected mosquitoes that had been kept 12 days or more after biting yellow fever patients were taken with the disease and the yellow fever [illegible] as confirmed by [illegible] of Havana who were above all others familiar with the disease in [illegible] mosquitoes at an earlier period than 12 days after they had bitten a yellow fever patient [illegible] not one contracted the disease In another series of experiments of seven persons bitten by infected mosquitoes [illegible] contracted the disease

Such in brief was the result of the experimental work None of the [illegible]

It was found that yellow fever was produced by the [illegible] blood taken from the general circulation of a patient subcutaneous injection of two cubic centimeters of blood being followed by the disease and the definite conclusion was [illegible] that the parasite of yellow fever must be present in the general circulation at least during the early stages of the disease and [illegible] malarial fever either by the bite of the mosquito or by the injection of the blood taken from the general circulation From this the important corollary is reached to quote Dr Reed's own words The spread of yellow fever can be most effectually controlled by measures directed to the destruction of the mosquitoes and the protection of the sick against the bites of these insects [illegible] and Disease by L O Howard in the American Monthly Review of Reviews for August

THE WEEK IN THE LODGES.

Your attention is called to the fact that there is a camp of Royal Neighbors in Colorado Springs known as Golden Rod Camp No 330 This camp has lately been organized and is in a healthy and flourishing condition and should have the hearty indorsement and support of all Modern Woodmen because of its close kindredship to the former organization [illegible] that the Royal Neighbors [illegible] for the wives and daughters of Modern Woodmen and that [illegible] carrying insurance in the Modern Woodmen may also carry insurance in the Royal Neighbors [illegible] Modern Woodman should become [illegible] social or beneficial member of the Royal Neighbors camp The Royal Neighbors membership consisting of both ladies and gentlemen makes that institution highly social in its nature and no more pleasant place can be found in which to pass an evening than in the camp of the Royal Neighbors

WOODMEN OF THE WORLD

Pikes Peak Camp No 5 had a very enthusiastic meeting Tuesday night paying bills for Quarto centennial float log rolling contests at Pueblo and other expenses of [illegible] feature including relief to several neighbors who have been on the sick list and are getting out again Neighbor Pickens who has been at Clark's magnetic springs taking [illegible] recovered [illegible] is loud in his praise for the way No 5 has taken care of him during his long sickness and says he does not think he would be what he is today [illegible] balloted on six applications and finished [illegible] initiated at Pueblo It was a grand sight to see [illegible] Woodmen on the floor at one time taking the last work which will make them better men better citizens and better fathers and husbands for life does not seem to them [illegible] are that [illegible] their loved ones are protected with good insurance and in case of sickness the father has 100 strong able bodied men at his [illegible] the door He also knows that [illegible] he is sick and disabled he cannot become delinquent and that one feature alone is worth more to a sick Woodman than anything else for he is not afraid [illegible] in saying he will get well for [illegible] die as [illegible] must do some day [illegible] fate

What a relief to think that you need not [illegible] your insurance while sick that is always a sick man's first thoughts if I [illegible] does my insurance stand? am I in good standing or must I lose out at the last [illegible] Ask a Woodman how he feels when he is sick and his assessment has not been paid [illegible] cannot lose out while sick
